Explanation of Status Field

The directory contains both current service provider/designated agent information as well as prior versions of designations.

- **"Active"** refers to the service provider's current designation.
- **"Inactive"** refers to an older designation that is no longer in use by the service provider and has been superseded by a newer designation.
- **"Terminated"** refers to a designation that is no longer active and for which the service provider has not provided any superseding designation.
